

**TERRA**  
TECHNOLOGY

# Reinventing<sup>the</sup> Global Supply Chain

Accurate + Current  
+ Consistent  
= Terra

We help make sure the products you use every day are on the shelves when and where you need them – all around the world. While this might sound simple, it's no Rubik's cube. **At Terra, you will be part of a team that uses applied mathematics to solve problems that have been challenging the industry for decades.**

### Do Good, Feel Good

Help some of the biggest companies in the world become more efficient and sustainable. You will be working on a new generation of smart supply chain software solutions that drive better decisions, reduce waste and lead to a brighter future. We are changing the way a 100-year-old industry matches supply to demand, making products consumers actually want instead of products they think people want.

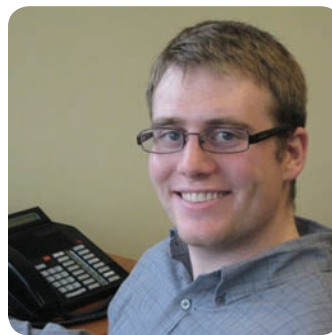

*I knew I wanted to find a company where I could have both a challenging career and help the environment. At Terra, I feel good knowing what I do affects not just me, but everyone around me, every day.*

**Stuti – Carnegie Mellon Tepper School of Business**

### Right Place @ Right Time

Looking for a place with growth and opportunities? Terra has been consistently ranked one of the the fastest growing technology companies in Connecticut for the past three years. You get the best of both worlds – all the opportunities that come from working with multi-national firms, plus the benefits of a small company where everyone knows your name. It is a great way to make an impact early in your career.

*I have found that liking what I do isn't enough; it's enjoying what I do and who I do it with that ultimately makes the job fun. Between the office perks, the challenging work and the friendship with coworkers, Terra has made it easy for me to be happy to go to work.*

**Luke – Gonzaga University**

## Intellectually Curious?

So are we. At Terra, you are surrounded by diverse people from around the globe that collaborate to get the best solution. Asking questions and sharing knowledge occurs every day. We value innovation and the development of our people – and it shows in our work environment and products.

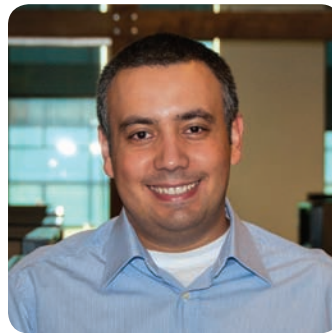

## What Do You Want to Do?

Match your talents with the great opportunities at Terra. Explore our careers in different parts of the world at [www.terratechnology.com](http://www.terratechnology.com).

*In my time with Terra, I have learned a lot from my colleagues. Everyone here encourages a collaborative discussion when you don't understand something. They want to make sure that you understand not just the solution, but the logic behind the solution.*

**Shen – SUNY University at Buffalo**

*It is really exciting to see theories learned in school come to life and be used in real business situations. My decisions have profound effects in businesses worldwide, every day. I know I have made a difference in the world already.*

**Turker – University of Minnesota**

The way I have been treated shows **Terra Technology believes “Employees Are Our Greatest Strength”**. It has been great working on a team with people from different cultures and different generations because I learn a lot from my coworkers. This is a rock solid company that has a very bright future and I am excited to be a part of it.

**Reema – University of Illinois at Chicago**

CTTech Top 40 fastest growing technology company since 2008

Ranked in the top five on CGT magazine’s Reader’s Choice Awards, five years running

Consumer products supply chain experts

Solving business problems with applied mathematics

## About Terra Technology

Terra Technology is the most-trusted provider of innovative supply chain solutions for consumer products companies. Terra Technology’s solutions use better mathematics and downstream data like POS to improve supply chain performance, reducing forecast error up to 50% and inventory up to 20%. More accurate forecasts save money, lower inventory, improve customer service and decrease waste. Some of the world’s largest consumer packaged goods companies use Terra Technology, including Procter & Gamble, Unilever, Kraft Foods, Kimberly-Clark, General Mills, ConAgra Foods and Campbell Soup.
